Advancing Business Through Technology

IT professionals who speak your language...

Imagine - an IT consultancy with a commitment to your company's success. An IT service provider that delivers thoughtful solutions that increase your teams' productivity, while **reducing** your overall tech-related expenses.

Venture Technologies is that resource. We're seasoned engineers, technicians and programmers. Our pro-active approach has benefited diverse environments; from Fortune 500 firms, mid-size companies and growth-track entrepreneurial enterprises.

No matter what you need, we've got you covered!

For on-demand requirements or ongoing strategic partnerships, **Venture Technologies** has the appropriate solution...

- Complete Systems Operations & Support
- Project Based Service | On-demand Solutions
- Technology Acquisition & Asset Management

IT delivery mechanisms which are organized, efficient and keenly personal...

We take your success very seriously. Whether we deliver comprehensive end-to-end services - or just those relevant to your particular needs - you'll always reach a familiar voice on the phone. You'll see the same dedicated service professional on every visit.

"The VT Lifecycle System gives our clients a competitive edge. Our 360° Process is strategic, proactive and performance-driven - it's how we approach every client, project, and challenge."

Dominick Peraglia
President | CTO
Venture Technologies

Unsure about what serves your best interests – call us!

We can advise you how to maximize your employees and systems performance. At **Venture Technologies**, we assess, anticipate and advise, with two strategic outcomes – improved productivity & the most bang for your buck. Our core services include:

Pharmaceuticals
Healthcare
Chemicals
Manufacturing
Government Agencies

Warehousing & Distribution
Financial Services
IT Service Companies
Consumer Service Firms

On-Demand Expertise

"Dominick and his team have been working for us for close to 10 years, supporting all of our IT requirements when and where we need it. VT is an extremely versatile asset for any company to have in it's IT arsenal."

- Jeff Tahan, Director of Materials Management
Vopak USA, Inc.

Ongoing Strategic Partnerships

"Since 1994, VT has helped us to build and maintain an IT infrastructure that supports our U.S. operations and communications with sites around the world. As a Japanese company, we value such long-term partnerships and appreciate the professionalism Venture Technologies always exhibits."

- Mike Warner, Business Affairs Manager
Daikin America, Inc.

Small Business Specialists

"We've been using **Venture Technologies** since 1996, when we needed to fix the disaster that another company left us in. Dominick had us up within 24 hours and has been keeping us running since then, updating our hardware and software. He and his staff work with us and our outside programming without ever making us feel like the computer dummies we may be. We're happy to recommend him to any company for their computer needs."

- Kathy Gillen, Owner
Garrie Pest Control
